MADAGASCAR *an overview*

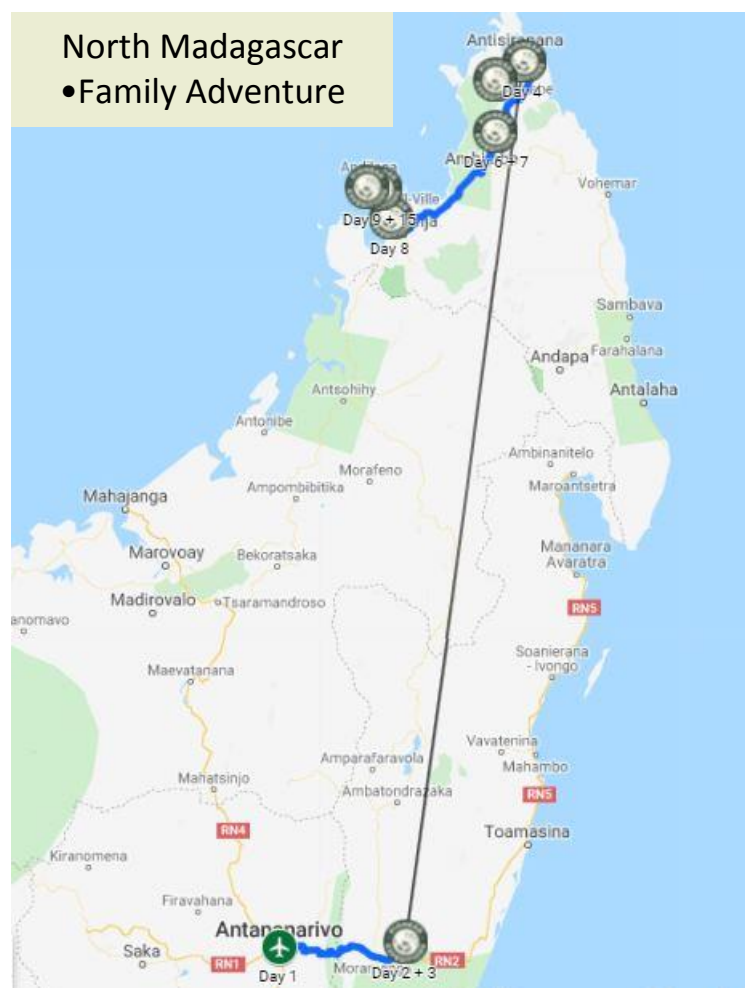

Madagascar is a one-off; there is no other place like it. Its landscapes, animals and plants are simply fantastic! Near the equator with an astonishing array of habitats, ranging from rainforests to deserts and from mountain tops to mangrove swamps, it is one of the most important countries for biodiversity on the planet. The tropical climate is a perfect host to the process of nature and, like nowhere else, the variety and richness of life has flourished. We will see much of the unique flora and fauna of Northern Madagascar on this exceptional off-the-beaten-track, nature guided expedition.

WHY PIONEER EXPEDITIONS?

We really are one of the few specialists that really “do” off the beaten track and unique adventures in MADAGASCAR. We are driven by a passion for adventure travel and wildlife and Madagascar is one of our main specialities. We know it inside-out, and continuously collaborate with our local partners and tour guides to ensure that you have the best experiences on your dream Madagascan adventure – this focus is reflected in our uniquely wonderful itineraries. As parents ourselves, who have taken our children to Madagascar, our experts are on hand to help design your bespoke holiday.

Pioneer work in some of the world’s most spectacular, remote and extraordinary places worldwide.

DAY 1: Tongasoa eto Antananarivo!

After arriving in Antananarivo (or Tana, as it is known by the locals), you will be met at the airport and transferred to your hotel.

Antananarivo is the capital and largest city in Madagascar. It is buzzing with activity and full of people flooding the streets, selling everything you could imagine! Tana (as the locals call it) resembles a Mediterranean hill town and exploring its rich cultural and architectural sites on foot is relatively easy (as long as you are willing to climb hundreds of ancient stone steps) It is a hectic city though and we would recommend a driver / guide if you want to explore!

Overnight:
Hotel

Meals:
N/A

Approx. Distance:
Airport Transfer

Activity:

DAY 2 : Heading to Andasibe National Park to experience our first encounter with lemurs!

This morning we will set off to the Andasibe-Mantadia National Park (previously known as Perinet) where you will spend 1 ½ days exploring this wonderful environment. En-route we will stop at a farm specialising in Madagascan reptiles and butterflies, before arriving at our hotel. Depending on time of arrival, this afternoon or tomorrow you will get a chance to stroll around the private island reserve of Vakona Lodge with the opportunity to spot plenty of lemurs. This evening, take a twilight/nocturnal walk, looking out for the nocturnal species of lemur by catching their eyes in the torchlight.

Overnight:
Hotel

Meals:
B, L, D

Distance:
150km (4hrs Driving)

Activity:
Wildlife Encounters

DAY 3 : Discovering the beauty and wildlife of the unforgettable Andasibe National Park

Today you will be able to explore this area including visiting Analamazaotra (Andasibe NP)

Andasibe-Mantadia National Park (formerly known as Perinet) is a 155 square kilometer protected area, about 150 km east of Antananarivo (approx. a three hour drive) consisting principally of primary growth forest. These are home to the teddy bear-like Indri, the largest of Madagascar's lemur species, as well 11 lemur species in total and a wide array of bird life too. Listening to the piercing yet melancholy cry of the Indri in the morning is an evocative experience and for those who are prepared to follow them through the thick rainforest, the reward is often a close-up view of these beautiful creatures. This National Park was inscribed in the World Heritage Site in 2007 as part of the Rainforests of the Atsinanana.

DAY 4 : Andasibe to Tana to Montagne des Francais

Today you will transfer back to Tana where you will catch your flight to Antsiranana (Diego Suarez). Upon arrival in Diego you will be met by your new guide and transfer to Montagne des Français, just a short 1 ½ hour by road, but a very different environment.

*The Montagne des Français reserve protects deciduous dry forest characteristic of the north of Madagascar. Much of the forest is on a calcareous massif that has been eroded into Tsingy. This is one of the best places to see one of the most beautiful baobabs, *Adansonia suarezensis*. Montagne de Francais is part of the larger Ramena protected area complex and is home to fish eagles and crowned lemurs.*

Tonight we will have a unique experience here as we will overnight in the tree bungalows – literally huts built in trees!

Overnight:
Tree Bungalows

Meals:
B, D

Distance:
3hrs drive
1 hr flight
1 ½ hrs drive

Activity:

DAY 5 : Montagne des Francais – Montagne d'Ambre

This morning we will explore this reserve. After lunch we will head to Joffreville, the entrance to the Montagne d'Ambre National Park

Overnight:
Hotel

Meals:
B, L, D

Distance:
1 – 2 hrs driving

Activity:
Wildlife and Exploring

DAY 6 : Amber Mountain & Ankarana

Today we will enjoy a trek in the Montagne d'Ambre National Park

This stunning National Park is comprised of a huge tropical forest with waterfalls and volcanic lakes. This islet of verdant forest is a haven of freshness that escaped the stuffy heatwave of this region. There are numerous animals that inhabit this national park including the ring-tailed mongoose, the fossa and 8 lemurs (which are not always easy to see). It is also home to 75 bird species – 35 of them are endemic, 60 reptiles (from leaf tailed gecko's to a number of chameleon species, 35 frogs and 40 butterflies. Due to its relative proximity to Diego, this park can get quite busy (by Madagascan standards) in the high season, however it is really worth visiting.

We will have some lunch and then head South to Ankarana National Park

We will stay at a lodge just outside the park.

Overnight:
Lodge

Meals:
B, L, D

Distance:
Approx. 4 hours

Activity:
Trekking and Wildlife

DAY 7 : Exploring and unearthing the striking landscapes of **Ankarana Reserve**

Today will be spent exploring this amazing park. The trails are not easy but are feasible for anyone with a moderate level of fitness and we recommend visiting this park in the dry season (May-Nov). With younger children we can recommend a shorter route in the National park avoiding rope bridges.

Ankarana Special Reserve covers 18,220ha and is known for its limestone karst pinnacles called Tsingy along with its extensive cave system and network of underground rivers. Ankarana possibly has the highest density of primates of any forest (with 11 species of lemurs being found here) and here you may see the crowned lemur, Sanford's brown lemur, Perrier's (black sifaka) lemur, the northern sportive lemur and dwarf lemurs as well as a variety of chameleons and leaf-

tailed Uroplatus gecko and great flora.

Overnight:
Lodge

Meals:
B, L, D

Distance:
N/A

Activity:
Trekking and Wildlife

DAY 8 : Hit the road towards the **Ankify**

This morning we head to Ankify. After lunch in Ambanja, we will take to our mountain bikes as we explore this area and the Cacao plantation on 2 wheels. At the end of the cycle we will head to the coast of Ankify (a short hop – approx. 20 minutes from Ambanja).

Tonight we will stay at lovely beach bungalows.

Overnight:
Lodge

Meals:
B, L, D

Distance:
160km (5hrs Driving)

Activity:
Culture and Cycling

DAY 9 : ANKIFY – NOSY BE – NOSY SAKATIA

Your driver and guide will leave you this morning as a private boat will take you to Nosy Sakatia.

Nosy Sakatia, an island away from an island is a nature's paradise. -

Situated on the west coast of Nosy Be, Nosy Sakatia boasts unspoiled tropical flora and fauna. There are no roads, only foot paths on this small island of 6.5 km long and 2 km wide at its widest point. It is perfect for one to wonder and explore its beauty and deserted beaches. The island is fringed by spectacular coral reefs to be enjoyed by snorkelers and scuba divers alike.

(We recommend Sakatia Lodge as a laid back beach destination, on an island just off Nosy Be. There are however many other options if you prefer somewhere with a pool, on Nosy Be or on one of the other nearby islands).

Overnight Hotel

Sakatia Lodge
www.sakatia.co.za

Please note, while you are at Nosy Sakatia, your time is at your leisure and you are not accompanied by a guide. Any activities you choose to do are at your own risk and have not been assessed by Pioneer Expeditions. We have stayed at the lodge and everything is professionally run. The dive centre is NAUI (National Association of Underwater Instructors) and DAN (Divers Alert Network) affiliated.

Please also there is no pontoon at Nosy Sakatia – so when disembarking the boat you can expect to get wet up until your knees. We recommend wearing shorts and sandals for the transfer.

NB: This itinerary is subject to change – arrangements, routes and facilities are subject to variation depending on local conditions. When driving times are given, this is only an indication. It aims to reflect the actual driving time (and doesn't include stops, lunch, traffic). The road journeys, while often long, are one of the great ways to experience Madagascar. There is so much life on the road and many photographic opportunities along the way from a natural and people perspective.

On this particular trip there is a minimum age of 8 and some previous outdoors experience is useful.

We can also tailor itineraries to suit your exact requirements including catering for younger children

If this trip isn't quite what you are looking for, we can **tailor itineraries** to suit your exact requirements.

GETTING AROUND

- 🚗 Transport will consist of 4x4, to give you the most authentic, off-the-beaten track experience. These vehicles are best at tackling the challenging roads that Madagascar primarily consists of.
- ✈️ Madagascar is notorious for the unreliability of its domestic flights in terms of time. The flights schedules are always subject to change at anytime and can experience cancellations, which are not ideal when following a schedule! ; For this reason we tend to travel by road for the most part.
- 📏 Distances and times will of course be lengthy due to the vastness of the island and lack of good-quality road systems throughout the country. However, this all adds to the adventurousness of any Madagascar trip; but is definitely something to be aware of whilst travelling around Madagascar.

WHAT OUR CLIENTS HAVE SAID...

"Fantastic holiday, many thanks for organising everything. The team were excellent, first class - great guiding from Max, he was perfect for our family"

– -R. Sawtell

"The itinerary, guides and drivers were all spot on. We enjoyed all the parks on the way down to Tulear and managed to see most types of Lemur and Sifakas. The highlights of the trip? Too many to mention really."

EXTENSION EXAMPLES

Feel free to **contact us** for more information on all of our Madagascar Extensions. Alternatively, browse through our extension document, available from our website.

1. An adventurous trip ending in paradise with our spectacular **Island Hopping Trip** around **Nosy Be**

Why not add a sublime Island Hopping adventure onto your Madagascar trip and further your time in Madagascar with something a little different. This unique extension combines sunsets, cocktails, white-sandy beaches, swimming, snorkelling, Madagascan vanilla scented air, heavenly turquoise waters, meals under the stars with journeying on dhows (Madagascan sailing boats), nature walks, wildlife and beach camping.

With the air scented with Madagascan vanilla and tranquil, sparkling clear turquoise water, Nosy be is a charming destination for anyone. There are plenty of hotels and excellent restaurants serving seafood feasts on the sand. The sunset over the beach is unbeatable – a real escape from the hustle and bustle of Madagascan city life. Nosy Be means 'big island' in traditional Malagasy language and is a fantastic place to dive and snorkel.

(Email us at **info@pioneerexpeditions.com** for costings and more information on these extensions, as well as even more extension ideas)

WHEN TO GO...

The majority of our Madagascar trips take place March to December, this is when Madagascar is at its best. The weather and climate can change a lot throughout the year and when you go to experience this remarkable country, depends on your preferences.

Madagascar Autumn: **March - May** (Dry and Warm)

- ☺ After the rains have passed. Everything is lush and green and fertile
- ☺ March is great in the South West, but some roads in the North and West can still be recovering from the monsoon season.
- ☺ April and May is the perfect time to visit. Great wildlife, great weather and not too many tourists.

Madagascar Winter: **June - August** (Dry)

- ☺ This ideal season for trekking / activities as is the coolest time in Madagascar. Temperature vary in the different areas but typically around 20 degree C
- ☺ Evenings (especially in the highlands) can get very cool at night (10 degrees C)
- ☺ Good time for seeing lemurs, but due to the cooler weather smaller mammals and reptile will be less active
- ☺ July and August can be busier in the national parks due to school holidays.
- ☺ August and September are ideal for keen birdwatchers to visit Madagascar.

Madagascar Spring: **Sept - November** (Dry and Hot)

- ☺ September to November is highly popular, as even North Eastern Madagascar is dry now.
- ☺ August and September are ideal for keen birdwatchers to visit Madagascar.
- ☺ It is hotter with very little rain, great for spotting chameleons and lizards, but quite hot for trekking / activities – in November temperatures start to rise rapidly.
- ☺ October is particularly perfect for witnessing baby lemurs.
- ☺ Main downside with this time of year is that it is the peak season so national parks are busier with more tourists

Madagascar Summer: **December – March** (Hot and Rainy Season)

- ☺ The rains start to come. The North East is still relatively dry in December and we offer many Christmas trips.
- ☺ January/February should definitely be avoided as it becomes monsoon season - due to the heavy rainfall causing the already difficult roads to become muddy and impassable. The RN7 is still drivable so the 'classic' Madagascar route is still possible for those who can only travel in this season
- ☺ This is the best time of year for orchid lovers

*"My favourite time of year is **May** because the rains have finished so everything is lush and green. You don't see many other tourists as they tend to go in September and October, but everything is just beautiful – it's pretty perfect."*

- **Laurenne Mansbridge**
Pioneer Director
