EXTRAORDINARY AND UNIQUE BORNEO

This Borneo holiday focuses on the wildlife, rainforests and beaches of the Sabah region of Borneo, one of the best areas for seeing the great variety of Borneo's fauna and flora. The jungles are literally millions of years old and teeming with wildlife, from the smallest insects and amphibians to orangutans, gibbons, monkeys, pygmy elephants and exotic birds. There will be plenty of time for us to trek in the rainforest and experience it at first hand, both during the day and at night. There is plenty of time to relax too, at some of Borneo's best lodges as well as at some of the best beaches.

We arrive at the Labuk Bay Proboscis Monkey Sanctuary, arguably the best Borneo endemic Proboscis monkey observation post. We will wait to see the feeding time, when the animals will approach the feeding platforms. Oriental pied hornbills, squirrels, silver-leaf monkeys, can often be spotted here as well.
